

Dear Hiring Manager,

I am writing to apply for the Machine Learning Engineer position. I hold an **M.Tech in Artificial Intelligence from NIT Bhopal (June 2025)** and have worked as an **AI Engineer at Gravitas AI**, where I developed scalable software systems including **multilingual RAG-based applications** using **Python, FastAPI, PostgreSQL, JWT authentication, and AWS services (Lambda, S3, SES)**.

With strong experience in **backend development, APIs, databases, and cloud-based deployments**, I am eager to contribute to building efficient and reliable software solutions for your team.

Thank you for your consideration.

Sincerely,  
**Ajoy Prasad**
